MARCH 4th    MARCH 5th

## PRE-CONFERENCE WORKSHOPS

### WORKSHOP BY

MARCH 6th

## BUSINESS AGILITY DAY

### KEYNOTE

23 SPEAKERS  
11 COUNTRIES

**TARGET**  
Executives (CxO, Founders), Business Leaders, & Change Agents

MARCH 7th

## DESIGN INNOVATION DAY

### KEYNOTE

22 SPEAKERS  
4 COUNTRIES

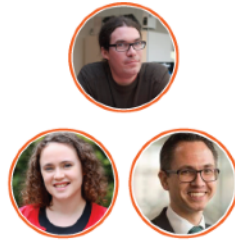

**TARGET**  
VP/Director level Product & Technology Leaders, Product Managers & Designers.

MARCH 8th

## DIGITAL TRANSFORMATION DAY

### KEYNOTE

25 SPEAKERS  
6 COUNTRIES

**TARGET**  
Executives (CxO, Founders), Technology Leaders, Architects, Tech Leads

MARCH 9th

## DevOps & CONTINUOUS DELIVERY DAY

### KEYNOTE

25 SPEAKERS  
7 COUNTRIES

**TARGET**  
Technology Leaders, Architects, Tech Leads, Developers and Testers

MARCH 10th

## POST-CONFERENCE WORKSHOPS

### WORKSHOP BY

MARCH 11th

# + Business Agility Day +

Business Agility is the ability of an enterprise to respond to change faster than the rate of that change, resulting in high customer satisfaction and profitability in a turbulent business environment.

**Target Audience:** Executive (CxO, Founders), Business Leaders, and Change Agents.

**Knowledge Partner**

At Business Agility Day, we have selected sessions to explore the various factors that are necessary when whole enterprises become agile in the true sense of the word. The program will provide an understanding of how different aspects of the organisation can embrace agile thinking, explore the real challenges that organisations face when making these changes and highlight the business outcomes achievable when becoming an adaptive, agile organisation.

## Keynote Speakers

**Linda Rising**  
Author of Fearless  
Change COO,  
The Hillside Group

**Bjarte Bogsnes**  
Senior Advisor  
Performance  
Framework @Statoil

**Steve Denning**  
Author of The Age of Agile  
x-Program Director,  
World Bank

The program consists of 23 speakers  
from 11 countries.

## More Details

<https://2018.agileindia.org/business-agility>

# + Design Innovation Day +

Hosted By **cooper**

Cooper is an award-winning design and business strategy agency. Through consulting and professional education, we make organizations, products, and services more human-centered.

Successful products are built by a combination of understanding user and business needs (Viability), skilful execution (Feasibility), and creating value and delight (Desirability).

**Target Audience:** VP/Director level Product & Technology Leaders, Product Managers and Designers.

At Design Innovation Day, we will convene brilliant leaders from the Business, Design and Engineering communities and explore what it takes to build awesome user experiences.

## Keynote Speakers

**Alan Cooper**  
Father of Visual Design  
Interaction Design  
Pioneer

**Jeff Patton**  
Author of User Story  
Mapping  
Lean Product Design  
Evangelist

**Peter Jacobs**  
CIO  
ING Nederland

The program consists of 22 speakers  
from 4 countries.

# +Digital Transformation Day+

With technological disruptions hurling the unexpected time and again, organizations find themselves struggling to harness emerging technologies to achieve business brilliance.

Succeeding in such dynamic and complex business environment requires progressive organizations to constantly re-invent themselves – and get it right each time. One of the most effective ways for organizations to achieve this is to replace old-school protocols with deep-rooted organizational transformations.

Digital Transformation is one such transformation, that is changing the way organizations connect with customers to stay relevant while incorporating smarter technologies for a business advantage. It's about creating new markets, new opportunities, new businesses, and ecosystems but also new challenges. How does your organization embrace its' own Digital Transformation and successfully blend enterprise IT with new and emerging tech?

**Target Audience:** Executive (CxO, Founders), Technology Leaders, Architects, Tech Leads

## Keynote Speakers

**Dr. Denis Bauer**  
Team Leader  
Transformational  
Bioinformatics @CSIRO

**James Stewart**  
x-Deputy CTO of the  
UK Government

**Nils Kappeyne**  
CIO Integrated Gas & New  
Energies  
Shell International

The program consists of 25 speakers  
from 6 countries.

# + Continuous Delivery & DevOps Day +

Hosted By  **redhat.**

Red Hat is the world's leading provider of open source solutions, using a community-powered approach to provide reliable and high-performing cloud, virtualization, storage, Linux, and middleware technologies.

To build a great business, one needs to consistently delight customers. To deliver high-value products/services in a sustainable/predictable manner, we need to invest in software craftsmanship culture, backed by solid engineering practices and automation tools for building, testing, deploying, and monitoring. Software organisations that practice Continuous Delivery and DevOps have had a massive impact on their business and customer satisfaction.

**Target Audience:** Technology Leaders, Architects, Tech Leads, Developers and Testers

Continuous Delivery and DevOps Day will expose you to industry-proven techniques to help your organisation with predictable delivery, data-driven experimentation culture and more importantly help build an organisation that learns continuously, at a fast pace.

## Keynote Speaker

**Gregor Hohpe**  
Technical Director  
Google Cloud  
Computing

The program consists of 25 speakers from 7 countries.
